

Environmental Management Policy

Ecozar Technologies Ltd is a leading renewable energy company in Nigeria, with specialty in design, installation and maintenance of micro / mini grid solar projects, Ecozar as an organization is committed to minimizing the environmental impact of its services, by continually improving its environmental performance as an integral part of its business strategy and operating methods.

Ecozar Management commits to the following:

1. To promote good sustainability practices towards reducing the environmental impact of its activities.
2. To comply with all relevant environmental legislation, regulations, and approved codes of practice.
3. To strive to continually review and improve its environmental performance and integrate recognized applicable best practice into its business operations.
4. To minimize waste, but reuse or recycle as much of it as possible.
5. To minimize its consumption of resources and improve the energy efficiency of its operations wherever it is practical to do so.
6. To train its employees in good environmental practice and encourage employee involvement in environmental action.
7. To regularly report on its environmental impact and improvement initiatives.
8. To ensure that resources are available to implement this policy.
9. To maintain open and constructive dialogue with stakeholders about our environmental program and performance.
10. To communicate this policy to all staff as well as to all our interested parties.

This policy will be reviewed annually as part of the organization's overall environment management plan review.
